Dear Mr. McAllister:

Recently I saw a notice of your program for granting funds to support projects for tobacco research. I teach medical students and do research here at Ball State University in immunology and virology, and would like some information regarding your award program.

The announcement I saw indicated that there was an application deadline in May of this year (1990), however, it also said that awards are made twice yearly. So, I'd like to know when the 1991 deadlines are. Also, I am interested in the extent of funding that your organization would consider providing. If you would send me this information along with any forms necessary to make application, I would greatly appreciate it. Thanks for your consideration.

Sincerely,

Roger L. Noble
